PROFESSIONAL SUMMARY

Full Stack Developer and DevOps Engineer skilled in JavaScript, TypeScript, React.js, Next.js, Node.js, and AWS. Proven experience building scalable, reliable systems and optimizing backend and database performance.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Zustand, Tailwind CSS, Framer Motion
Backend: Node.js, Express, Hono, RESTful APIs
Database: PostgreSQL, Prisma, MongoDB, Redis
Cloud & DevOps: AWS (EC2, ECS, RDS), Docker, Nginx, Cloudflare, Jenkins, Git, Linux, CI/CD
Currently Learning: Go, Kubernetes

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern
Nextgen Automation Technologies *May 2026 – Present*

- Build and maintain full-stack features end to end alongside DevOps responsibilities across dev and production.
- Working as a DevOps Junior Engineer, managing CI/CD, Docker, GitHub, and deployments.
- Own deployment workflows and server administration for reliable, performant releases.
- Serving as Technical Head for the Ordersetu project.

Full Stack Developer Position
Google Developer's Group | *KNIT, Sultanpur* (College Club)

- Contribute as a Full Stack Developer within the Google Developer's Group chapter at KNIT, Sultanpur.
- Collaborate with peers on club projects and technical sessions using the MERN/Next.js stack.

Freelance Full Stack Developer
VTL *Remote, India | Feb 2026 – Apr 2026*

- Architected and deployed Express/Node.js backend APIs handling 10,000+ daily requests.
- Built a scalable Inventory Management system now used across multiple Indian states.
- Owned the full application workflow with a strong focus on performance and reliability.

PROJECTS

Rexial — Real-Time Quiz Hosting Platform **GitHub**
Turborepo, React.js, Express, PostgreSQL, Prisma, AWS, Redis, Docker, Nginx, Jenkins, WebSockets

- Real-time platform to host quizzes and competitions where participants join via a join-code.
- Scaled to 1,000+ concurrent users via Redis caching, auto-scaling WebSocket servers, and optimized code.
- Building v2 with GenAI quiz generation from PDFs/prompts; v3 planned with WebRTC live streaming.

RateLock — Low-Cost Rate-Limiting API **GitHub**
React.js, Express, PostgreSQL, Prisma, Docker, Redis, Node.js, Nginx, Jenkins

- Adds production-grade API throttling to any backend in two lines of code, replacing costly third-party gateways.
- Provides real-time rate-limit monitoring with zero additional configuration.

CombatX — Real-Time Coding Battle Platform **GitHub**
React, Next.js, TypeScript, Express, Docker, Jenkins, WebSockets

- Real-time coding battle game where teams race to solve the same problem; first team to pass all test cases wins.
- Supports 1v1, 2v2, 3v3, and 4v4 team formats with live match state synced over WebSockets.
- Random matching with players to play with them.

EDUCATION

B.Tech in Computer Science
Kamla Nehru Institute of Technology, Sultanpur *CGPA: 8.39 / 10.0*
